Subject: Best wishes to you

Hi Paula –

NO need to reply; I know you are incredibly busy. Having lived through many a communications crisis, I simply wanted to extend my best wishes to you and to your team during this challenging Animas River incident. Hang in there – and here's to hoping the media storm abates for you all soon!

Cheers,

Kara

Subject: RE: Invitation to Administrator McCarthy about CCSM Project success story

Thanks very much, and I'm glad to provide any additional information that may be needed to help make a decision. Even if neither Administrator McCarthy nor Regional Administrator McGrath are able to visit the ranch with us, we humbly appreciate their consideration and interest in our wind project.

If you and your staff are simply curious to hear more about our renewable energy projects, I'm happy to come down to your office to meet at your convenience. Our offices are not far away, just up the street at 17th and Welton.

Cheers,

Kara
